THE PERSONAL ROBOT

Last Updated: June 14, 2023

Temi robot OS version 131 release notes

temi should prompt a message saying that an update is available, if temi doesn't display the message please go to Settings and tap Software update to update your temi.

If temi prompts "no pending updates" please contact our Help Desk via our website, mobile app or temi Center, or at 833-902-0202.

To verify your *temi* has been updated, go to Settings > About and make sure that:

"Launcher OS" shows 17487

"Robox OS" shows 131.05

"firmware" shows 20221220
To verify your *mobile app* is the most updated version - go to the About tab in the temi mobile app and verify your version number is as follows:
iOS users - Version 1.1.57
Android users – Version 1.3.8941

For full details regarding this update and the new and improved features, please refer to our [User Manual](#), the [temi Center User Manual](#) and [tutorial videos](#) .

Here are some of the main improvements this update will bring into your temi:

temi Center:

- Added new feature "Multiparty Meetings": Ability to invite and schedule meetings with multiple participants to join video calls and control temi robots.
- Added ability to mute robot remotely during video call.

- Added templates for sequences that can be edited by users for easy setup.
- "Greet mode" has turned into "Dynamic Mode."
- Permission management has been updated: Call and Control permissions have been merged into Meetings and Control permission.
- Edit settings permission changed to customize permission.
- Display of current temi mode for every robot.
- Bug fixes and improvements.

For additional information regarding temi Center and its features, please refer to temi Center User Manual Here.
