Temi robot OS version 133 release notes

temi should prompt a message saying that an update is available, if temi doesn't display the message please go to Settings and tap Software update to update your temi.

If temi prompts "no pending updates" please contact our Help Desk via our website, mobile app or temi Center, or at 833-902-0202.

To verify your *temi* has been updated, go to Settings > About and make sure that:

"Launcher OS" shows 17887

"Robox OS" shows   133.12

"firmware" shows   20221220

To verify your *mobile app* is the most updated version - go to the About tab in the temi mobile app and verify your version number is as follows:

iOS users – 1.1.66(1)

Android users – 1.3.8976

For full details regarding this update and the new and improved features, please refer to our User Manual, the temi Center User Manual and tutorial videos .

Here are some of the main improvements this update will bring into your temi:

temi Center:

- Supporting new feature "Map eraser tool", this feature will allow users to clean and modify the unnecessary part within the map.
- Feature update: now users can assign goto and route speed in sequence.
- Feature update: now scheduler supports two new actions "power ON/OFF/Restart" and "App launch"
- Feature update: Navigation timeout now can work with bypass obstacles, also the timeout time now can be set up to 10 minutes.
- Minor bug fixes and improvements.

For additional information regarding temi Center and its features, please refer to temi Center User Manual Here.

Mobile App:
